We think the last day of the Valley fair in Brattleboro ought to be an object lesson to voters. It has been remarked that there has never been so much drunkenness in the streets of Brattleboro, and all the out-going trains had their quota of drunken men. On the narrow gauge train in particular were men, drunk and sober, sitting on the floor of the car unable to stand. Their remarks were too disgusting to be heard. This is one of the results of our license law.

His early life was spent in this town, he being engaged for many years in the manufacture of baby carriages in this place, until the destruction of his plant by fire about 27 years ago. The following from the Orange, Mass., Enterprise will be read with interest by many people in Jamaica and adjoining towns: On Sunday evening, Sept. 4, Mrs. Maria P. Cutler, mother of Rev. J. S. Cutler, passed peacefully away after a long illness, at the home of Mrs. Laverna Twichell on Green street, where she has been boarding for the past year. Mrs. Cutler had been an invalid for several years, suffering from a gradual decay of her mental faculties, and remaining unconscious for several weeks before she passed away. Her age was 82 years and six months. For the year she has been with Mrs. Twichell she has been a constant source of anxiety and care, owing to her sad nervous condition; but in her illness she has been faithfully and tenderly cared for by Mrs. Twichell, who spared no pains, and shunned no sacrifices necessary to the comfort of her helpless charge. For such painstaking and faithful service Mrs. Twichell deserves and will receive the heartfelt gratitude of Rev. Mr. and Mrs. Cutler, and the other friends of the deceased. Such kindly deeds reveal the noble quality of love which characterizes the true followers of the Master who taught the truest love of God in service to man. Fred Weston, a youth well liked by all, quiet in deportment, ingenious and intellectual in mind, and of more than usual thoughtfulness as a boy. Depth of Ocean Cables.

There seems to be no logical reason why cables cannot be laid across any section of the ocean regardless of the depth. Some portions of the Atlantic cables now in use are over three miles below the surface. There is also no logical reason why you should continue to suffer from loss of appetite, belching, flatulency, sour stomach, headache, indigestion, dyspepsia, or malaria, fever and ague when Hostetter's Stomach Bitters will positively cure you. It has cured thousands of other cases, probably more serious than yours, during its half century experience and this, together with the fact that prominent physicians never hesitate in recommending it, should be sufficient reason for urging you to try it. The genuine has our Private Stamp over the neck of the bottle.
